PROFESSIONAL SUMMARY

Dynamic software developer with two years of experience in crafting and maintaining robust web applications using PHP, Laravel, JavaScript, and modern frameworks. Proficient in database management with expertise in MySQL and MongoDB, alongside a proven track record in API integrations and performance optimization. Recognized for strong collaboration skills and a commitment to delivering efficient, high-quality solutions that meet project goals. Passionate about leveraging technology to drive innovation and enhance user experiences.

SKILLS

React JS, AWS, Node JS, AWS DevOps, Debugging & Troubleshooting, Problem Solving, Communication Skills, Risk Planning, Maintenance & Support Projects, PHP, Laravel, Basic Python, Jquery, Ajax

EXPERIENCE

Software Developer, 10/2023- Current

smartData Enterprises Ltd. – Mohali, SAS Nagar

- Developed and maintained web applications using PHP and Laravel.
- Collaborated with developers to design and implement new features.
- Optimized performance through code refactoring and database tuning.
- Integrated third-party APIs and services.
- Achievements:
- Improved website loadtimesby40%throughoptimizeddatabasequeries.
- Built reusable component library to streamline development.

Summer Camp Intern, 08/2022 - 09/2022

Maruti Suzuki India Limited–Gurugram

- Gained a foundational understanding of data modeling and normalization.
- Acquired proficiency in SQL joins for multi-table queries.
- Maintained database structures, and ensured data integrity.
- Participated in troubleshooting and issue resolution.

EDUCATION

Bachelor of Technology: Computer Science and Engineering, 06/2024

Swami Vivekananda Institute of Engineering and Technology - Banur, Punjab

GPA: 8.3

PROJECTS

LinkedIn Post Generator:

- User have to write Topic name, Type, Tone, and length
- AI-powered tool to create engaging LinkedIn posts.
- Features include AI content generation, customization, and ready-to-share output.
- URL: [LinkedIn Post Generator](https://linkedin-post-generator-coral.vercel.app/) (https://linkedin-post-generator-coral.vercel.app/)

Ambayo

- A marketplace application where users can select their role as either a company or an individual.
- Users can earn by posting advertisements for any product.
- They can also promote their ads based on categories, such as displaying them on the landing page banner or within specific category listings, for a selected duration (e.g., 3 days, 7 days, etc.).
- Subscriptions can be purchased using Stripe, cryptocurrency, or the Ambayo Wallet.

Wine Cellar Application

- Developed a comprehensive web application for managing wine collections, planning trips, and exploring wine-related information.
- Implemented a robust database to track wine inventory, purchase details, and consumption recommendations.
- Integrated external data on wine pairings, origins, and events.

Public Adjuster

- Contributed to a web-based insurance claim platform.
- Coordinated with a team of adjusters, schedulers, and apprentices to manage insurance claims efficiently.
- Developed systems for lead generation and assignment.
